SUMMARY

Final-year BCA student (Kalvium SPE, Manipal University Jaipur) specialising in full-stack and applied AI engineering. Four live apps shipped solo, from architecture to deployment, plus an open-source agentic tool. Seeking an SDE / GenAI internship from September 2026.

TECHNICAL SKILLS

Languages - Python, TypeScript, JavaScript, SQL, C++

Frontend - React, Next.js, Tailwind CSS, Vite

Backend - FastAPI, Node.js, Express, SSE streaming, JWT, OAuth 2.0

Databases - PostgreSQL (pgvector, HNSW), MongoDB, Supabase, MySQL

AI / Retrieval - RAG, hybrid retrieval, Reciprocal Rank Fusion, OpenAI API, Gemini, Langfuse

Tools - Git, Playwright, axe-core, Vercel, Railway, Render

EXPERIENCE

Software Engineering Intern · Indraprastha Power Generation & Pragati Power Corporation (Govt. of NCT, Delhi)

Jun 2026 – Aug 2026 · IT Department (GM Tech-IT)

- Maintaining and shipping features on the company's live internal web portals, frontend and backend, for a government power utility serving Delhi.
- Directly accountable to the IT department for uptime, functionality, and production stability of live systems.

PROJECTS

DocuMind — Production RAG Application · Solo · Live · Shipped June 2026 · [Live ↗](#) · [Web](#) · [API](#)

Stack: Next.js 15 · TypeScript · FastAPI · PostgreSQL + pgvector · Supabase · OpenAI API · Langfuse · Vercel · Railway

- Production document Q&A platform with live users, built end to end from architecture to deployment.
- Hybrid retrieval: PostgreSQL full-text search plus pgvector (HNSW) semantic search, fused via Reciprocal Rank Fusion. More accurate and citation-grounded than vector-only approaches.
- Production hardening: PDF byte-validation, per-IP rate limiting, global daily cost cap, ephemeral storage with auto-delete after 30 min (pg_cron), on-demand delete and privacy controls.

a11y Agent — Accessibility Detect→Fix→Verify Agent · Solo · Shipped July 2026 · MIT · [GitHub](#)

Stack: Python · Playwright · axe-core · OpenAI GPT-4o-mini (text + vision)

- Scans a live page, proposes context-aware fixes for four accessibility issue types, re-scans to confirm each cleared, and retries once with the axe error as feedback before failing.
- LLM does judgment only; axe-core owns detection and verification, so the model never decides what is broken or whether its fix worked. Deterministic contrast fixes act as a control case and caught two real pipeline bugs.
- Reports three verification tiers separately instead of one aggregate: deterministic re-scan, attribute presence, and a vision-model quality judge. Resolves 73–76% of targeted violations across four live sites.

Familiar — Medium-Style Blogging Platform · Solo · Live · Shipped July 2026 · [Live ↗](#) · [GitHub](#)

Stack: React · Vite · Node.js · Express · MongoDB · JWT · Passport (Google OAuth) · Resend · Vercel · Render

- Full-stack publishing platform with a rich-text editor, infinite feed, threaded comments, likes, bookmarks, follows, and in-app notifications.
- Complete auth surface: JWT sessions, Google OAuth with account linking, email verification and password reset with single-use expiring tokens; auth endpoints return uniform responses regardless of account existence to prevent enumeration.
- Notifications are created server-side on engagement events and isolated by design, so a failed notification never breaks the like or comment that triggered it.

Cafe Scrapbook — AI-Powered Cafe Discovery · Solo · Live · [Live ↗](#) · [GitHub](#)

Stack: React 19 · Vite · Tailwind CSS · OpenAI GPT-4o-mini · Gemini fallback · Vercel

- Live cafe discovery app for Jaipur: 44 curated cafes with AI natural language search (GPT-4o-mini, Gemini fallback).
- Bayesian ranking to surface cafes by quality signals over raw ratings; custom pixel-art UI.

ASCI 2025 Conference Website · Solo · Production · asciconference.in · [GitHub](#)

Stack: React · Vite · React Router · AOS · Swiper

- Official live website for an international academic conference at Manipal University Jaipur: multi-page architecture, scroll-triggered animations, and responsive carousels.

EDUCATION

Bachelor of Computer Applications (Honors) · 2023 – 2027 · Manipal University Jaipur · Kalvium Software Product Engineering Program
